Ayr Academy, Scotland. BDP Architects (August 2017) Photos by Graeme Duncan

Installation:

25mm x 38mm Ribs in Natural Oak installed to the central Drum at the College with sections of back-to-back ribs.

A warm welcome into 2018 from LSA Projects!

Starting the year off with a wonderful project up in Ayr, Scotland. The brand new college campus opened its doors to over 1000 students in August of 2017.

The 6-year secondary school has state of the art classroom facilities for an engaging and high-tech learning experience as well as professional quality all-weather sports pitches as well as fitness, and dance suites which are available to the wider community. The school has followed suit from other local colleges and universities by including informal social and learning spaces in the atrium.

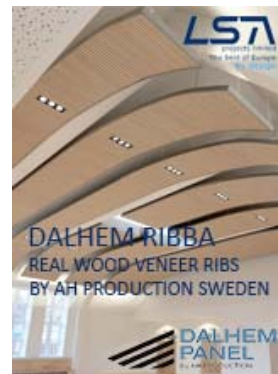

The new campus is a huge step-forward from the previous historic 1880's school and is inspiring enthusiasm and pride in all of it's staff and students.

Dalhem Ribba ([as well as Shiluvit ceiling panels](#)) were specified to support the acoustics in the open plan main plaza of the school. The central drum clad in Dalhem ribs is a functional focal point of the space, housing a learning resource centre inside and hosting a computer classroom and social space on top.

If this inspires you for one of your upcoming projects we would love to hear from you!

Our thanks as ever to BDP for their kind specification and to Linear Projects for their expert installation.

Dalhem Ribba is available in the UK only through LSA Projects Ltd.

Please follow the link on the right to download the new Dalhem brochure.

COME SEE US AT [ARCHITECT @ WORK!](#)

LSA Projects Ltd will be at the Architect @ Work event at the Olympia on the 24th and 25th of January. Supporting our Metal Ceiling supplier Durlum in Booth 48.
