Inspiration 64

Inspiration: Gustafs Mobile Meeting Room and Workspace

Product: Gustafs GPod

Gustafs GPod - Stockholm Furniture Fair (2018)

Officially launched on the 1st of February 2019, and showcased during Stockholm Design Week at Stockholm Furniture Fair, the GPod from Gustafs is an acoustic and fully customisable mobile work space solution.

Meeting pods are a new must for modern office design; they provide private space inside busy open plan offices without the need for extensive construction work and without sacrificing the versatility and practicality of a collaborative workspace.

The GPod from Gustafs comes with the added bonus of their market leading acoustic products. Inside the pod you will find are Gustafs patented perforated acoustic panels reducing internal sound reverberation and stopping any sound from leaving the pod; perfect for maintaining privacy.

Externally there's the choice to have either nano perforated panels or linear ribs on the outside of the GPod restricting the external sound that makes it into the pod. Using Gustafs Nano perforated panels on the external sides of the pod also allows for digitally printed branding and custom rear lighting features to customise your pod.

Green and Safe

- Natural Fire Safety, A2-s1,d0 surfaces
- No added Urea Formaldehyde
- Produced with 100% renewable energy
- BREEAM and LEED recognised

Features

- Silent and soundproof for 100% discrete conversations
