# Inspiration...

Issue 36

16th March 2015

LSA Projects and GESCHWENDER are very proud to have supplied and installed over 500 bespoke lockers and changing facilities to the new 3,000 m<sup>2</sup> Dreamfit Gym.

The client required the lockers to match with the company theme colours of charcoal grey and chartreuse green, with lockers in alternating pairs and contrasting bold numbers in some areas.

As well as the fundamental locker elements supplied by GESCHWENDER changing benches made from the same high pressure laminate were chosen to complete the space.

Geschwender products were specified for their long term functionality, 10 year guarantee as well as the option for the system to be tailored to fit every available space. The bespoke capability of the Geschwender products meant that there were no unsightly gaps in duct walling in the changing areas and access to vents and power-points could be concealed seamlessly.

Geschwender products are available in the UK only through LSA Projects Ltd.

If this inspires you for one of your leisure projects we would love to hear from you!
