

Leo's Sports Club

Geschwender

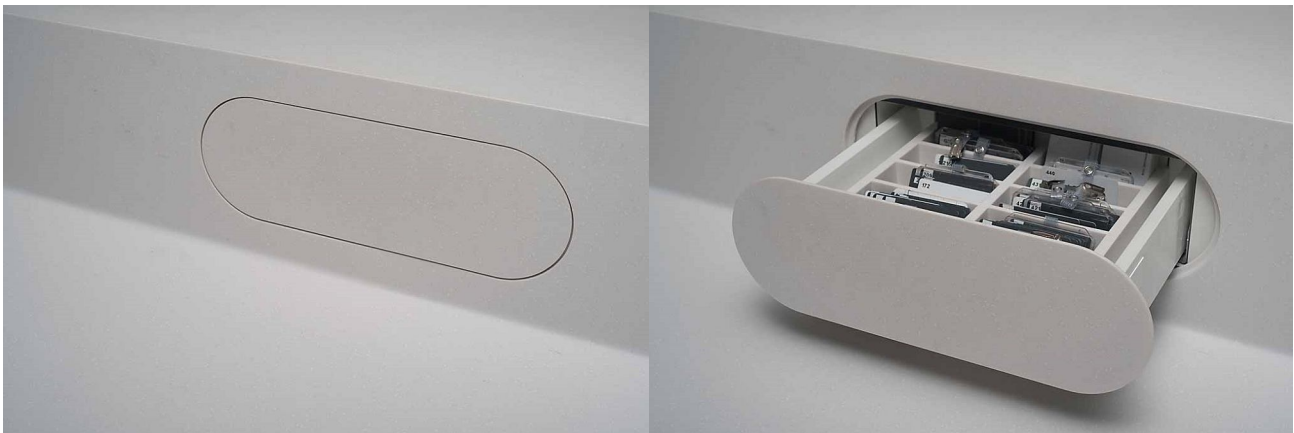

Leisure specialists Geschwender are very proud of their latest project at Leo's Sports Club. Made entirely from the Varicor® solid surface material, the reception desk, café/bar counter and shop counter are the epitome of style and practicality.

Throughout the facility Varicor® has been used to create desks and other furniture due to its inherent qualities; it is non-porous, easy to clean, impact resistant, stain resistant, largely chemical and temperature resistant, food safe and easy to handle. The shaped shelving units and custom designed drinks dispenser above are further examples of the flexibility of this material.

The drawers, the secret compartment for membership cards... all elements of the reception desk have been created using Varicor®.
