

Project: Harris Boys Academy

Architect: Howarth Litchfield Partnership

Product: Gustafs Panel System

Employing a mixture of Natural Cherry, Natural Birch and Gemini Mahogany with a PD8 perforation, the architects created a visually compelling feature wall in the foyer of the new Harris Boys Academy in East Dulwich.

The **GUSTAFS Panel System** has been used in many schools throughout the UK and worldwide as a one stop shop for design, fire-resistance, acoustic control and sustainability.

SPECIAL OFFER

This month we are running a special gift offer. The first 10 people to contact us, quoting reference **Inspiration10**, will receive a Limited Edition Gustafs USB stick.

You can download a **PDF** version of this email [here](#)
