

Project: Catlin Insurance

Architect: Artillery Architecture

Product: GUSTAFS Panel System

RAL 9010, 250 m2, "Washington" bespoke perforation style

LSA have just finished our first project using a variant of the "Washington" perforation – so named as GUSTAFS supplied a similar bespoke perforation style to the Swedish Embassy in Washington, DC.

White painted panels to RAL 9010 to numerous "catwalk" ceilings within the superb new offices for Catlin Insurance in the City.

Our sincere thanks to Artillery Architects for choosing GUSTAFS Panel System to satisfy the aesthetic and acoustic requirements and Stortford Interiors for an excellent installation.

If this inspires you for your current projects, we would love to hear from you!
