

Product: GUSTAFS Panel System® in Birch with PH8 Perforations

Architect: Aedas

**Contractor: Shepherd
Construction**

**Installer: Quad Building
Service (Southern)**

LSA are very proud to have supplied almost 1200 m² of GUSTAFS Panel System® in Birch to the redeveloped Holland Park School in North Kensington.

The panels have been used in both the sports and assembly hall of this fully equipped £80m comprehensive school which opened in October 2012.

GUSTAFS Panels were chosen primarily for its acoustic functionality, in addition to its strong aesthetics and environmental credentials.

Our thanks as ever to Aedas Architects for their specifications and Quad Building Services for the superb quality of installation and attention to detail.
